Nick

- Some blockers with currency with javascript might not be able to finish this sprint. Almost done though, just need clarification on one thing.

Victor

- Tutorial almost done, may need some help with some of tests.

Griffith

- Merged stories

Jackson

- No updates

Emmie

- No updates

Stella

- No updates

Completion Confidence (1-5): 4

Daily Stand Up 3/20/2024

Nick

- Same blockers talked to Jackson about, new branch to test stuff out. The new UI navbar might conflict, so might have to refactor UI elements for trading, for the era. Set balance to 0 on the first world.

Victor

- Pretty much done with the cucumber tests, having trouble with first login. Tutorial is done based on the scenario.

Griffith

- Couple of PRs open. Protecting admin routes is a big PR, and can be merged soon.

Jackson

- Backlog of PR because how much it changes.

Emmie

- No updates

Stella

- No updates

Completion Confidence (1-5): 4.5

Daily Stand Up 3/18/2024

Date: 03/18/2024

Time: 1 PM

Location: Slack

Members:

- ☒ Stella

Nick

- Working on currency

Victor

- Working through cucumber today, no blockers

Griffith

- working on protecting admin paths

Jackson

- Not too much, 1 more cucumber scenario, don't need cucumber tests for UI

Emmie

- I finished all the consumer facing UI in the break and PR has been up for those. Planning on doing some stuff to admin pages as well

Stella

- Working with Emmie. Sidebar done, waiting on discussion about currency

Completion Confidence (1-5): 5

Daily Stand Up 3/8/2024

- ☒ Stella

Nick

- Working on currency, yesterday I asked Ritchey about Javascript. Helps with the blocker he had. Re-merge PR again.

Victor

- I'm still working on the tutorial contents, but I'll probably start working through the cucumber tests soon. No blockers (besides these exam)

Griffith

- Working on starter items, change how the cucumbers test work

Jackson

- Not too much, 1 more cucumber scenario, don't need cucumber tests for UI

Emmie

- Working on sidebar, clean header for time day header

Stella

- Working with Emmie on the sidebar, no blockers

Completion Confidence (1-5): 5

Daily Stand Up 3/6/2024

Date: 03/06/2024

Time: 1 PM

Location: Google Meets

- ☒ Victor
- ☒ Griffith
- ☒ Jackson
- ☒ Emmie
- ☒ Stella

Nick

- Finished chore for changing time and story, trade fails story, currently working on currency and halfway done. Blocks: hard to update because of the template form. Working on that

Victor

- Starting with the routing no blockers

Griffith

- Started on starter inventory items, plan to have that finished, no blockers

Jackson

- Working on finished cucumber tests and review PR

Emmie

- Finished UI style guide and pushed into github, looking into tailwind.

Stella

- Committing the RSPEC excludes coverage now and working on the bank next.

Completion Confidence (1-5): 5

Nick

- not started on anything yet either. I'll be working on trade fail increases later today.

Victor

- I haven't started on my story yet. I'll probably be working on coming up with the content of the tutorial and maybe the routing/views.

Griffith

- not started anything yet, but plan on working on starter items first

Jackson

- working on cucumber tests. I'm going to do Stella's next so everyone has at least one story ready to go

Emmie

- I'm working on the UI style guide today

Stella

- Committing the RSPEC excludes coverage now and working on the bank next.

Notes: First day of sprint development
